Product Description

Amagicar Level 2 Ev Charger Portable Ev Charging Cable 15a Type 1 Electric Vehicle Charger

This is an portable EV Discharger and easy to carry,outdoors, picnics and trips use. The app portable EV Discharger is convenient to portable, stable in performance and has a complete protection mechanism. The LCD indicator light display of the portable EV Discharger can show the charging status. This device has app/blue tooth function that can be adapted to it through you pone. WOCOR® look forward to becoming your long-term portable EV Discharger partner in china.

This portable EV Discharger is the latest invention and have high-quality ETL/FCC/CE/CQC/ certification. The portable EV Discharger body box is made of PC94VO material, which has been designed to prevent the product from overheating during use of safety problems and indication of working status very well. The portable EV Discharger can be used with app/blue tooth and 4G scan code. The specifications of (3.75KW) with portable EV Discharger can be OEM/ODM according to your needs. portable EV Discharger combines with 1.5m electric wire,a charging box and electric gun. The interface have There are European, American and national standard of the portable EV Discharger. WOCOR® look forward to becoming your long-term EV charger partner in china.

Electrical Specification		Working Environment	
AC input voltage	110V-250V	Protection degree	IP66
AC power frequency		Environment temperature	-20℃ ~+40℃
Nominalpower	3.75KW(Three Phase)	Relative humidity	10%~90% frostless
Output rated current	AC/113A (Three Phase)	Maximum altitude	<2000m
Charging interface type		Cooling	Natural air cooling

The portable electric car charger belongs to the portable EV Discharger (3.75KW), and the charging power is generally 3.75kW. In order to prevent potential safety hazards due to incorrect use, please read the equipment manual carefully before use. Do not charge in places that do not meet the charging conditions. Ensure that the power supply and wiring are in a normal state before use.

- * Do not immerse the device in water.
- *Do not use it in an environment that exceeds the operating temperature.
- *Do not put your fingers into the car end plug when the device is connected to the power source.
- *Do not use when the equipment and cables are found to be damaged.
