RFID Card Electric Vehicle charging station combines with 5m electric cable, a charging box and electric gun. There are European of the RFID Card Electric Vehicle charging station electric guns.

Product Parameters			
Electrical Specification		Working Environment	
AC input voltage	AC 230V~400V;	Protection degree	IP 65,IP54,IK10
AC power frequency	50/60 Hz	Environment temperature	-30%~55%
Nominal power	7KW 11KW 22KW	Relative humidity	5%-95% non-condensing
Output rated current		Maximum altitude	<2000m
Charging interface type	Type2/GB/T	Standby power	<4W
